In The Moment Planning	The wonderful thing about the EYFS curriculum is that it is specifically designed to work around the interests and needs of each class of children. We take our lead from the children's passions and interests, theming our teaching around them to ensure that children really engage with their learning. As we cannot know what will motivate and inspire the children as they move through the year, all other themes and topics will emerge from the children's interests and will be recorded on 2simple.
