

**Peek at the week
Maple and Cherry Class
WB - 14.09.20**

We are already really pleased with how the children are settling in and get to grips with routines and learning environment.

Phonics & Literacy

We will be starting Phase 1 phonics. We feel this is an important starting point and lays the foundations for future phases.

This week we will be going on a listening walk and using instruments.

The children have been finding their own names and will this week have a go at copying letter patterns

Maths

We will be spending these first few weeks letting the children explore numbers and shapes in their independent play before starting more formal maths times.

Physical Development

This half term we will be looking at and exploring the children's big and small movements. In PE they will be doing lots of practising changing and learning simple gymnastics

Cherry class have PE on a Monday and Maple on a Friday.

Understanding the world

Wellies -

Please can every child bring in a NAMED pair of wellies which can stay in school. They can use these for the mud kitchen and forest school activities.

PSED

We have been exploring transitions and this week we will be talking about our class rules and making friends. We are also following on with our whole school PSED recovery activities

Expressive Arts and Design

The children love junk modelling, so we would love your clean recycling (which we can isolate for 72 hours) Then in return you may get a fabulous creation.

Please note: we CAN NOT take glass bottles, loo rolls or nut products.

Communication and Language

This Half Term - We will be using lots of language in class discussions and exploring how we can listen and communicate with each other, both inside and outside
