

### Spellings

Spellings will be shared again on Friday with you. Please note that you do not need to turn any spellings in to us on Google Classroom. Everything that we put up regarding spellings is for your information only and to help you practise at home.

### Food tasting

As part of our Explorers topic the children will be tasting and smelling food. We will be eating tinned kidney beans, oat cakes and pineapple. If you have any issues regarding this please speak to your class teacher or Email them on the class Email.

Peek at the Week  
Year 1  
WB: 16.11.2020

### Home learning

Home learning is now set through Google Classroom. Please do not send any home learning via the class email. There is further information on the classroom stream to help turn in home learning. Please ensure you look at this to help you.

### Old Christmas cards

If you have any Christmas cards (used or new) that you could donate we would happily take them off your hands. The children enjoy cutting the pictures up and creating Christmas pictures.

#### This week we are learning ....

English	This week we are continuing with poems. We will be creating poems about what we love and hate, continue to read poems applying reading strategies and practise our handwriting.
Maths	We are still continuing to learn about addition and subtraction. We are taking longer to get through the steps because we really want to ensure the children can grasp the context and apply what is being taught to them independently. This week we are adding together, adding more and adding number bonds.
Phonics	This week we are practising reading, sounding out and writing CVCC words. The children will continue to practise phase 2 and phase 3 sounds and tricky words everyday.
Handwriting	This week we would like you to practice numbers. When we write numbers it is important to remind the children to always start at the top.
Topic	This week we are going to introduce a topic. We are going to start off with History and learn all about Christopher Columbus.
