

Our school has been closed again because of Coronavirus

Coronavirus is now not spreading as fast as it was so the government and scientists have told us that it is safe for everyone to come back to school from Monday March 8th

The
government
have got a
new plan

Very important
government plan

- 1.
- 2.
- 3.
- 4.

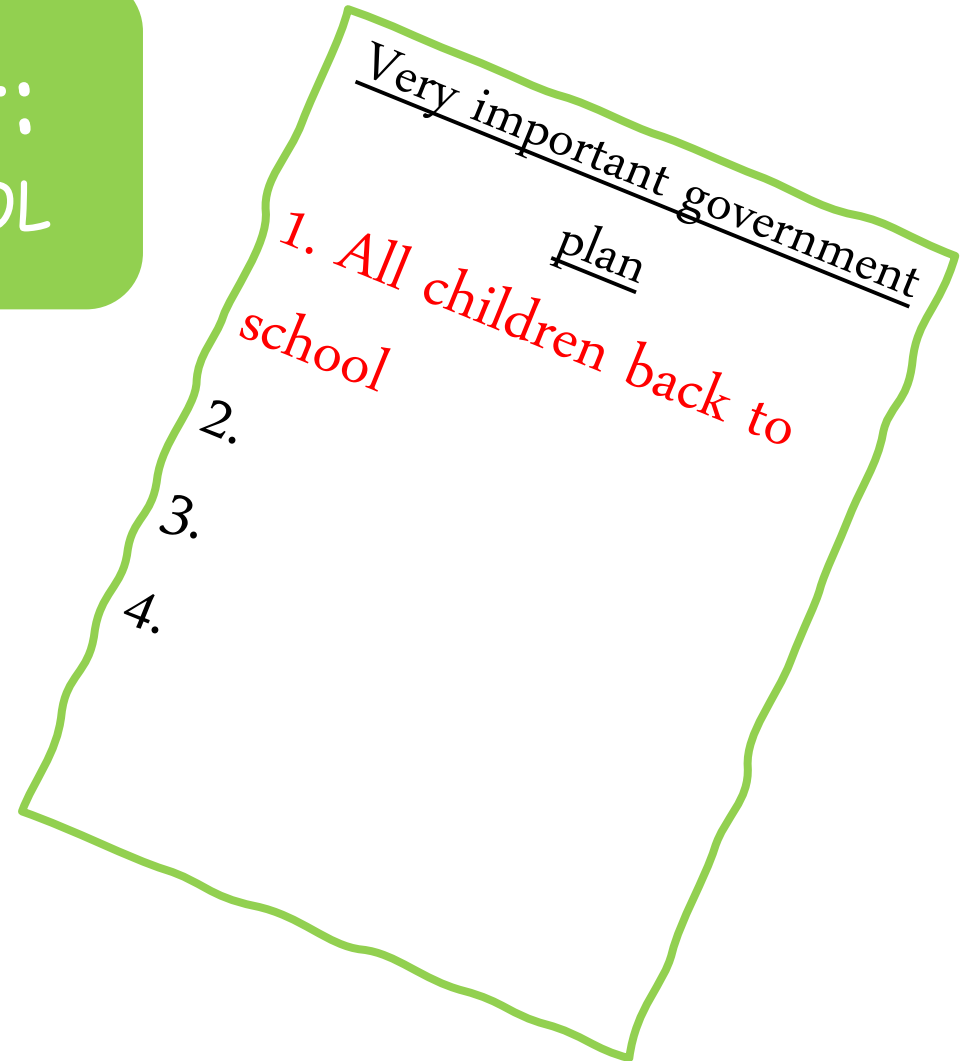

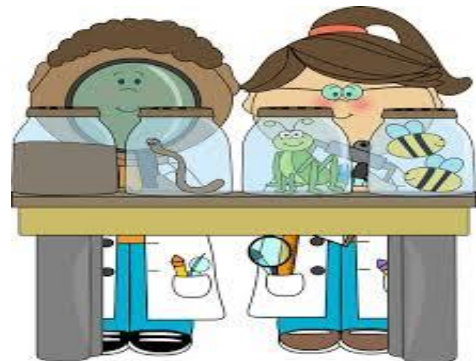

WE MUST
ALL follow
the new plan

A plan is a list of things we ALL have to do to make sure we carry on being safe.

Now on the important list:
ALL CHILDREN CAN GO BACK TO SCHOOL

ALL CHILDREN CAN GO BACK TO
SCHOOL.

The scientists now say it is safe for
everyone to go back to school.

Understanding Social Distancing

-Socially Skilled Kids

Social Distancing?

ing is staying away from
ly groups of people. This
he chances of spreading
oronavirus, to others.

Why Do We Need To Use Social Distancing?

have social distancing
ways feel symptoms with
virus. ???

, we don't even know w

ancing is the best an
ing we can do to help
the coronavirus.

ne's responsibility to
y from others, as muc

I can wash my hands

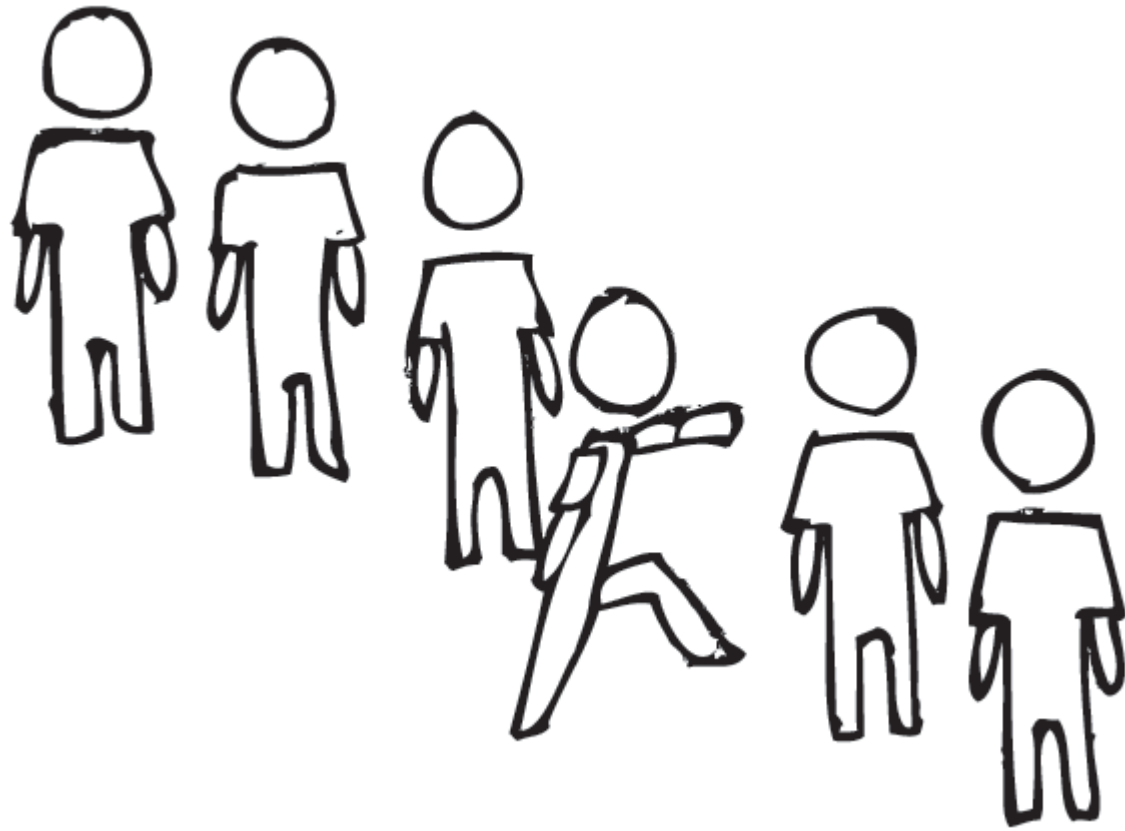

n, I put some
on my hands.

We must still follow the rules to help keep us happy, healthy and safe.

When we come
to school we
must still come
in the same way
as we did before

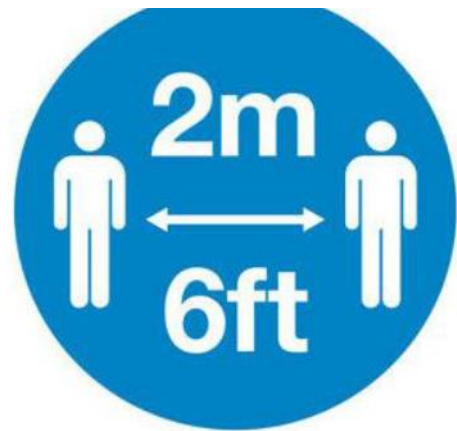

Our parent or carer
will drop us at the
correct entrance

When we are waiting at school we must stay with our grown up and line up sensibly so we stay safe and don't get mixed up with any other class bubbles

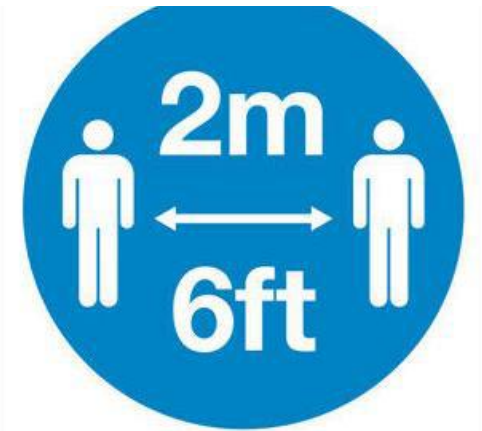

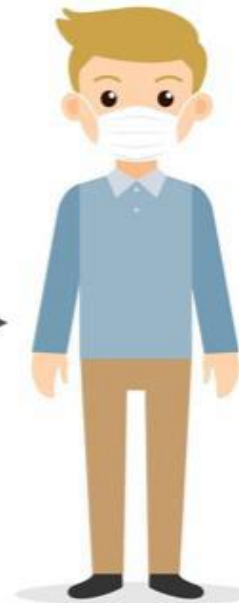

We will be back in our own classes and classrooms.
We will still try and stay 2 metres apart. This will
keep us safe.

Keep your
distance

SOCIAL DISTANCING

Keep your
distance

We will continue to stay in our class bubbles with our same adults all the time

We will be with all our class and staff that we know

Our class bubbles will help keep us safe.

We will continue to have our own class bubble
breaktime and lunchtime

We can still
bring our
own packed
lunch

If we have a
school dinner it
will be in a box

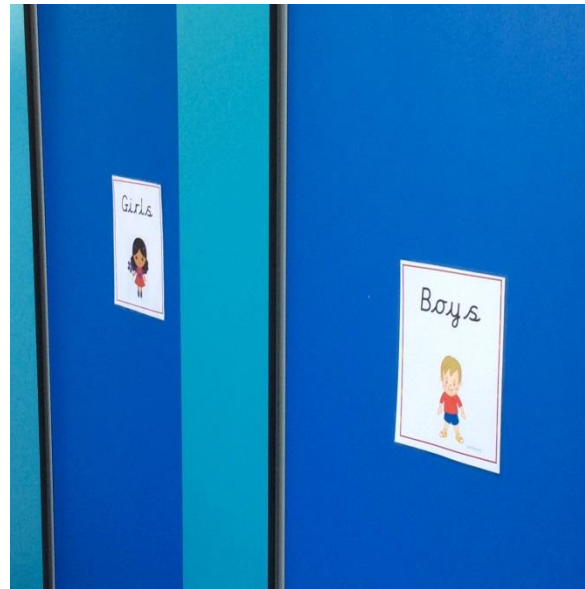

We will still eat our lunch in the classroom.

We will have class time to go on the playground and the field

We will still be able to use the trim trail and the tyres and we can have fun making up games.

We will only leave the classroom to go outside or go to the toilet.

We will still be able to use the toilet as usual

Only one or two people will be able to go the toilet at a time.

We must wash our hands afterwards

We will still need to wash our hands and use hand gel regularly to keep us healthy and safe.

- Arriving
- Playtimes
- Lunchtimes
- Playing outside
- Sneezing
- Coughing
- After going to the toilet

We can talk and laugh with our friends and adults but we will still try to keep a safe distance between us.

If we see feel sad or worried we can talk to our adults at school and at home and they will help us feel happy and calm

If we are poorly at school, staff will look after us as usual.

But they may look a bit different, if they are wearing a mask or gloves. This is another way to keep safe and stop germs spreading.

Coming back
to school will
be great and
it will be fun
being back
with our class
friends.
